

WMIYC ICE REPORT

This is best completed by experienced sailors who have been exposed to the wide variety of ice conditions. Also visual observations while the ice is in the process of forming can be valuable in identifying potential trouble areas to be checked out. Finally, and most important, there should be two or more persons performing the ice checking process.

Date & Time _____

Name of Lake _____

Location (nearest town) _____

Food and Lodging _____ Emergency Medical _____

Ice Thickness (thinnest found) _____

Has Ice Been Sailed (Y) (N)
